TOUR THE FLAG IS UP FARMS -- HOME OF MONTY ROBERTS, "THE HORSE WHISPERER"

While tracking wild mustangs in Nevada as a boy, Monty Roberts observed a nonverbal communication between the horses, a silent language he would later call "Equus." He would later develop a special method of force-free training methods based on communicating with the horses and building trust. On your morning visit to the farm, you'll be taken on a guided tour of the farm where you'll have an opportunity to learn first hand how the horses are trained and cared for using this technique.
