GREEN DIAMONDS: NATURAL RADIANCE

A special exhibit at the Natural History Museum

From now until April 1, the Natural History Museum of Los Angeles County will debut the special exhibition "Green Diamonds: Natural Radiance," which will add eight cases of bright color and shine inside the museum's renowned Gem and Mineral Hall. The vibrant diamonds on display as loose gems and mounted jewelry are part of the Gamma Collection, which was amassed over the course of 20 years and is comprised of more than 60 of the most rare and prestigious natural colored diamonds in the world. At the center of "Natural Radiance" at the museum will be "The Mantis," the largest yellowish green diamond ever graded by the Gemological Institute of America, alongside "The Shangri-La," the finest example of a large green diamond, both of which are mounted in rings.

THE CARIBBEAN EARRINGS
WILL BE AMONG THE JEWELS
ON DISPLAY

After viewing the diamond exhibit, you'll also have some free time to explore the museum's permanent collection. Encounter dinosaurs, experience nature, marvel at one of the most impressive gem and mineral collections in the world, and discover how Los Angeles came to be.

LUNCH AT PHILIPPE'S THE ORIGINAL

Established in 1908, Philippe's claims the distinction of having created the "French Dipped Sandwich." And part of the fun at Philippe's is the way the service works. You get into one of the 10 lines, and when you reach your "Carver," she can take care of your whole meal – make your sandwich, serve the salads, and pour your coffee. Dining is at long wooden tables and seating is family style.

Menu

LUNCH AT PHILIPPE'S INCLUDES:

- Each guest's choice of dipped sandwich:
beef, pork, lamb, turkey or ham
- Potato salad, macaroni salad
or cole slaw
- Choice of pie or cheesecake
- Coffee, iced tea or lemonade
