experience the Bible like never before!

PASSAGES EXHIBIT

Passages is a 30,000-square-foot, interactive exhibit presented by Museum of the Bible that chronicles the remarkable history of the Bible, from its transmission and translation to its impact and controversies. Around 400 priceless artifacts are used to tell the stories at Passages. These are set against immersive environments, such as the Caves of Qumran, where the Dead Sea Scrolls were discovered; the Jerusalem Chamber at Westminster Abbey, where a committee of scholars worked to finalize the King James Bible translation; and even the surface of the moon itself, where a complete copy of the Bible was carried by astronaut Edgar Mitchell on Apollo 14. Santa Clarita is the sixth U.S. city to host this fascinating exhibit. iPods are provided onsite for the audio tour.
